

UNIVERSITY OF SZEGED

MEDICAL UPGRADING AND ANATOMY SUMMER COURSE

Albert Szent-Györgyi Medical School,
Hungary, Szeged

Academic year 2021/2022
2nd semester

AIM OF THE COURSE

The aim of the course is to revise and acquire the most important basic medical knowledge in order to prepare students for joining the 6-year English language Medical Programme from year 2.

The course comprises the following subjects: Anatomy, Histology and Embryology (theory and practice), Behavioural Science subjects (Introduction to Medicine, Introduction to Psychology and Communication), Latin Based Medical Terminology, Hungarian Language, Basic Life Support.

ENTRY REQUIREMENTS

1. Precondition for participation in the course is either a B.Sc. Degree in Natural, Life, Biomedical, Neuro Sciences or completion of Cell Biology and Molecular Genetics, Medical Chemistry and Medical Physics (studies must be identical or similar in at least 75 % to the curriculum of the University of Szeged).

2. According to the decision of the Admission Board of the Albert Szent-Györgyi Medical School of the University of Szeged, students who have failed in Biology, Chemistry, Physics, Mathematics or English Language in the final year of their high school studies are not entitled to apply.

3. **Non-native speakers** of English must provide **proof of sufficient English language proficiency**. The following English language test results accepted by the Medical School: **TOEFL iBT®** test: overall score of 81, **IELTS**: overall score of 6.5, **PET**: English score of 134
