## Open days and webinars

As in the past years, we are ready to organize open days and webinars/Q & A sessions specifically for your applicants. During these events, applicants can meet Faculty staff and student representatives. Please, let us know whether you are interested in this opportunity.

Just like every year, we will also have official Open Days (dates coming soon) that can be attended by anyone interested. We will keep you informed about the details.

## Nobel-Prize 2023

We are extremely proud of the fact that our Alumna Katalin Karikó received this year's Nobel Prize in Physiology or Medicine. Please feel free to use this as a selling point in your recruitment activity. More information about Katalin Karikó can be found on the following website:

## Online application platform Dream Apply – fee paying programmes

The 2024/2025 year application process for the fee-paying programs of the University of Szeged is conducted through the online application system Dream Apply.

Application is possible from

- Health Science Programmes: December 01, 2023

- Non-Health Science Programmes: January 01, 2024

## **NEW!** Tuition fee Discounts – General Medicine, Pharmacy, Foundation Year

The following discounts will be available from the 2024/2025 academic year:

**Early bird discount:** Students who are admitted to the General Medicine, Pharmacy or Foundation Year program prior to April 30 will receive a 300 euro discount that is deducted from their tuition fees of their very first semester.

**Sibling discount:** Siblings (brothers/sisters) receive a 300 euro discount every semester in which both—or more—of them have an active student status. Students paying 50% of the full amount of their tuition fees, are entitled to receive discount of 150 euros per semester. In case one sibling's student status becomes passive or it is terminated, the discount will no longer apply to the other sibling(s).

In the recruitment period 2024/2025 the University of Szeged is going to organize joint health science entrance exams which will be conducted online, approximately every second week. You can check our 2024 examination calendar here:

<http://www.med.u-szeged.hu/fs/entrance-examination-190103/entrance-examination>

Each test contains three sections: 20 multiple-choice Biology questions, 20 multiple-choice Chemistry (Organic, Inorganic and Biochemistry) questions, and 20 questions in English Language (General and Medical English). The students will have 80 minutes to complete the test.

Topic lists and a sample test can be found here: <http://www.med.u-szeged.hu/fs/entrance-examination>

Please note that an updated sample test will be available soon.

The written tests take place on the University's examination site, Coospace. Applicants will be sent a username and a password via e-mail, after they have received the entrance exam invitation in Dream Apply and successfully registered to a chosen exam date within the proper Dream Apply task. During the written exam applicants must also join a ZOOM meeting with audio and video turned on so we can monitor the exam.

The oral interviews are scheduled to start the day after the written test and are conducted via ZOOM.

Due to time-zone differences, on request, we can also organize afternoon examination sessions on certain exam days. Please, let us know if you believe that in case of your applicants there is need for this.
